
HP-UX Troubleshooting

Duration: 5 Days Course Code: H4264S

Overview:

This course examines some of the problems that can negatively impact productivity in HP-UX system and network operations. It presents some of the tools and procedures that can be used to find the causes of problems and fix them. The 5-day course is 55 percent lecture and 45 percent hands-on labs using cell-based HP Integrity servers.

Target Audience:

This course is suitable for experienced HP-UX system administrators.

Objectives:

- Use the Management Processor for troubleshooting.
 - Recover a non-bootable HP Integrity system or partition.
 - Work through file system recovery options.
 - Troubleshoot a kernel crash dump.
 - Troubleshoot patch problems.
 - Troubleshoot network, NFS, and DNS problems.
 - Troubleshoot EFI problems.
 - Recover a non-bootable HP 9000 system or partition.
 - Troubleshoot an 11i v3 kernel.
 - Troubleshoot process problems.
 - Troubleshoot storage problems.
-

Prerequisites:

- HP-UX System and Network Administration I (H3064S) and HP-UX System and Network Administration II (H3065S) or
 - HP-UX System and Network Administration for Experienced UNIX® System Administrators (H5875S)
 - Or equivalent experience.
 - The course includes nPar and vPar troubleshooting, so attendance of HP-UX Partition Management (U5075S or HG770S) is recommended.
-

Follow-on-Courses:

- HP-UX Logical Volume Manager (H6285S)
- Inside HP-UX (H5081S)
- HP-UX Performance and Tuning (H4262S)

Further Information:

HP-UX Partition Management (U5075S or HG770S).
