## HP-UX VERITAS Volume Manager

**Duration: 4 Days**    **Course Code: HB505S**

---

### Overview:

This hands-on course covers the configuration and administration of VERITAS Volume Manager (VxVM) for HP-UX. Covering basic procedures to advanced configuration and recovery topics, the course is 50 percent lecture and 50 percent hands-on.

---

### Target Audience:

This course is suitable for administrators, systems engineers, and technical support representatives responsible for systems that use the VERITAS Volume Manager.

---

### Objectives:

- View your VxVM configuration.
  - Install the VxVM software.
  - Configure, extend, reduce, move, and destroy volumes.
  - Configure, extend, reduce, deport, import, and destroy disk groups.
  - Manage striped and RAID5 volumes.
  - Manage mirrored volumes.
  - Manage VxVM boot disks.
  - Manage layered volumes.
  - Replace and recover failed disks, volumes, and plexes.
  - Convert LVM volume groups to VxVM disk groups.
- 

### Prerequisites:

- HP-UX System and Network Administration I & II (H3064S & H3065S) or equivalent experience.
-
