
Introduction to HP BladeSystem and the Converged Infrastructure

Duration: 1 Day Course Code: HE642S

Overview:

This 1 day seminar provides a detailed introduction to the HP Converged Infrastructure and its component pieces. Areas covered include the HP Infrastructure Operating Environment (including HP Insight Control, Insight Dynamics, Virtual Connect and Virtual Connect Enterprise Manager), HP Flex Fabric (and Virtual Connect Flex-10), HP Virtual Resource Pools (covering the HP EVA storage array solution), HP's Data Center Smart Grid and an overview of the HP BladeSystem Matrix.

After this course you will have an understanding of HP's Converged Infrastructure strategy and its component pieces.

Objectives:

- Discuss the components of the HP Infrastructure Operating Environment.
 - Describe the HP Virtual Resource Pools.
 - Provide an introduction to the HP BladeSystem Matrix.
 - Define HP's Converged Infrastructure strategy.
 - Detail the Flex-10 and Procurve components of the HP Flex-Fabric.
 - Explain the components and benefits of the HP Data Center Smart Grid.
-

Prerequisites:

- A basic understanding of the HP C-class BladeSystem would be beneficial.
-
