## HP BladeSystem Administration: C-class

**Duration: 3 Days    Course Code: HE646S**

---

### Overview:

This 3-day course provides instruction on HP BladeSystem administration and management. Discussion of the portfolio overview ensures an understanding of components, configurations, and solutions.

---

### Target Audience:

This course is suitable for administrators, engineers and consultants who will plan and manage the deployment of HP ProLiant BladeSystem c-Class blade servers.

---

### Objectives:

- Review the HP c-Class BladeSystem Portfolio and equipment capabilities.
  - Introduce Virtual Connect (basic concepts).
  - Gain the ability to perform successful site planning and infrastructure design needed to deploy an HP c-Class BladeSystem solution.
  - Be able to perform effective local and remote administration using HP Onboard Administrator.
  - Discuss the functional architecture of the ProLiant BL c-Class environment, including the servers, management infrastructure (Insight Display, Onboard Administrator and iLO), and power.
  - Understand the various servers and management tools which will be required in the solution.
  - Understand the support processes for the HP BladeSystem components, enclosures and software.
- 

### Prerequisites:

- HP recommends that students have attained the following credentials or levels of experience before taking this course:-
  - HP Insight Foundation or similar experience is recommended. HE643S
- 

### Follow-on-Courses:

- HP Virtual Connect HK758S
  - HP Systems Insight Manager Essentials HK756S
  - AND
  - HP Insight Control Server Deployment he645s
-
