## HP StorageWorks P4000 SAN Configuration and Administration

**Duration: 2 Days**    **Course Code: HK364S**

---

### Overview:

This course begins with the information required to understand, manage, and configure your HP Storage P4000 SAN. This training covers topics such as HP SAN/iQ® Software features and functionality, configuration, iSCSI protocol, as well as HP SAN/iQ Software in several popular application environments such as Microsoft SQL, Microsoft Exchange, and Oracle. The training also covers best practices for HP P4000 SAN - based on field experiences and applied industry knowledge, such as installation and configuration of HP SAN/iQ® Software, use and verification of iSCSI Initiators, and MPIO.

---

### Target Audience:

This course is suitable for Storage Administrators.

---

### Objectives:

- Install, configure and verify a HP SAN/iQ solution.
  - Create an iSCSI SAN.
  - Understand and use sophisticated HP SAN/iQ storage management tools.
  - Install, configure, use and verify HP SAN/iQ software.
- 

### Prerequisites:

- Basic Networking.
  - Advanced knowledge of Windows Servers.
-
