
HP Systems Insight Manager Essentials

Duration: 2 Days **Course Code: HK756S**

Overview:

This 2-day course equips students with the skills and knowledge to install and configure HP Insight Control integrated management solution for physical and virtual servers. Students will spend the time learning, installing and configuring HP Insight Control capabilities to proactively manage system health through remote management tools. The course will also cover the integration of various options within HP Systems Insight Manager: ProLiant Support Pack version control. Course title: HP Systems Insight.

Target Audience:

This course is suitable for Administrators, engineers and consultants who will: Plan and manage the deployment of the HP Systems Insight Manager and HP Insight Control components and monitor and manage systems with HP Systems Insight Manager.

Objectives:

- Configure HP Insight Control and monitor managed nodes.
 - Describe management of the HP Insight Control management server.
 - List the steps involved in creating reports.
 - Describe and configure management and monitoring capabilities for: HP BladeSystem enclosures and ProLiant Support Pack version control.
 - Gain the knowledge to successfully plan and deploy an enterprise-level HP Insight Control configuration.
 - Understand the HP Insight Control architecture and agents.
 - Set up HP Systems Insight Manager security and custom tools.
 - Describe the integration of other management applications.
 - Conduct HP Insight Control troubleshooting.
 - Use hands-on activities to become familiar with tools and interfaces along with procedures for efficient ongoing management of the implementation.
-

Prerequisites:

- HP recommends that students have attained the following credentials or levels of experience before taking this course:-
 - Introduction to Introduction to HP Insight Control WBT HK317AAE
 - Recommended completion of HP Insight Foundation HE643S
 - Familiarity with general networking terminology and basic network security concepts.
 - An understanding of one of the following operating systems:-
 - Microsoft Windows 2000, 2000 advanced, 2003 Standard, 2003 Enterprise Edition or Windows XP.
 - RedHat Enterprise Linux AS or RedHat Enterprise Linux ES.
 - SuSE Linux Enterprise Server.
-

Follow-on-Courses:

- Advanced Insight Control Topics HK757S
 - HP Insight Control Power Management HK760S
 - HP BladeSystem Administration HE646S
 - HP Matrix Operating Environment Administration HK920S
 - Authorised VMware Training
-
