

Windows Operating System Fundamentals

Duration: 3 Days **Course Code: 349**

Overview:

This three-day MTA Training course helps you prepare for Microsoft Technology Associate Exam 98-349 and build an understanding of these topics: Operating System Configurations, Installing and Upgrading Client Systems, Managing Applications, Managing Files and Folders, Managing Devices, and Operating System Maintenance. This course leverages the same content as found in the Microsoft Official Academic Course (MOAC) for this exam.

Target Audience:

The Microsoft Technology Associate (MTA) is Microsoft's newest suite of technology certification exams that validate fundamental knowledge needed to begin building a career using Microsoft technologies. This program provides an appropriate entry point to a future career in technology and assumes some hands-on experience or training but does not assume on-the-job experience.

Objectives:

- Understand Operating System Configurations
- Install and Upgrade Client Systems
- Manage Applications
- Manage Files and Folders
- Manage Devices
- Understand Operating System Maintenance

Content:

Module 1: Introducing, Installing, and Upgrading Windows 7

Module 2: Introducing, Installing, and Upgrading Windows 7

Module 3: Understanding Native Applications, Tools, Mobility, and Remote Management and Assistance

Module 4: Managing Applications, Services, Folders, and Libraries

Module 5: Managing Devices

Module 6: Understanding File and Print Sharing

Module 7: Maintaining, Updating, and Protecting Windows 7

Module 8: Understanding Backup and Recovery Method
