

Database Fundamentals

Duration: 3 Days **Course Code: M40364**

Overview:

This three-day MTA Training course helps you prepare for Microsoft Technology Associate Exam 98-364, and build an understanding of these topics: Core Database Concepts, Creating Database Objects, Manipulating Data, Data Storage, and Administering a Database. This course leverages the same content as found in the Microsoft Official Academic Course (MOAC) for this exam.

Target Audience:

The Microsoft Technology Associate (MTA) is Microsoft's newest suite of technology certification exams that validate fundamental knowledge needed to begin building a career using Microsoft technologies. This program provides an appropriate entry point to a future career in technology and assumes some hands-on experience or training but does not assume on-the-job experience.

Objectives:

- Understand Core Database Concepts
 - Create Database Objects
 - Manipulate Data
 - Understand Data Storage
 - Administer a Database
-

Content:

Module 1: Understanding Core Database Concepts

Module 2: Creating Database Objects

Module 3: Additional details coming soon.

Module 4: Understanding Data Stor

Module 5: Administering a Database
